

AMETEK[®]

CHEMICAL PRODUCTS DIVISION

Environmental, Health & Safety Policy

The AMETEK Chemical Products Division is committed to responsible environmental, health and safety conduct. We strive to ensure the health and safety of our employees, visitors and contractors, to benefit the communities in which we live and work, and protect the environment. In that spirit our mission is to:

- Meet or surpass the requirements of environmental, health and safety laws and regulations.
- Educate, empower and expect all of our colleagues to work safely, follow safe practices, exhibit safety awareness, behave in ways that protect the environment, and make health and safety a core value.
- Encourage personal and group accountability for compliance with standards and conformance to AMETEK policies and identified best practices.
- Strive continuously to improve the efficiency of our operations so as to minimize both the use of non-production materials and the generation of wastes.
- Operate our facilities in a responsible and co-operative fashion in the communities where they reside.
- Continuously improve our environmental, health and safety management systems.
- Monitor our progress through periodic evaluations.
